Riedel Workshops   RWTART210123

Artist Matrix - Introduction

Description:
An informal introduction to the Riedel Artist digital matrix wired intercom.
We will be focusing on the hardware components that go in to making a basic system, then some of the key operations and functions.

Pathways
- Beginning a career
- Participating in an equivalent technical college or institution
- Seeking a career transition with vocational experience in similar industries and environments

Forward learning
After this workshop candidates may undertake other Riedel Tuesday events and In-person technical training

Eligibility
This course is suitable for anyone with an interest in communications equipment.

Where
The session will be held at Riedel Sydney.
Unit 10 / 26 – 34 Dunning Ave, Rosebery, NSW

Duration
The session last for four (4) hours. 10am to 2pm. This includes a break for refreshments.
